## **MORE THAN JUST ARTISTS**

*Born in the basement, 2016, Raw Phonics (RP) has built a strong foundation to establish itself among local & international nightlife. Fusing suburban influences with the bustling depths of the city, RP offers a unique experience. Its **homegrown roster** consists of **talented creatives**, DJs, producers and engineers that seek to provide the highest quality in underground electronic music. Raw Phonics currently curates a wide range of live events, online podcast series (Raw Phonics Radio) and weekly livestream (Raw Labs) that strives to carry its audience through a journey into sound. What was once an occasional gathering of like-minded individuals sharing an innate passion for underground music, has become an **ever-growing movement** here to stay.*
